A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre, of Shepherdston, W. Va., says: "I had a severe case of bronchitis and for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia, and consumption. Try it. It's guaranteed by Oberdorfer, the druggist. Trial bottles free. Regular sizes 50¢, \$1.

Thanksgiving In Paris.

The Union Service on last Thanksgiving Day in Paris held at the Baptist church was one of unusual interest all ministers of the town, who were at home, being present and taking part. Rev. J. S. Maglone of the First Presbyterian church, having for his theme our ingratitude as a nation and as individuals for the countless mercies and blessings about us, closing with a forceful appeal to all present to manifest their gratitude more fully by comforting those less favored than themselves.

It was a clear and distinct statement of our duty to God, the giver of all good, and to our fellow men.

The singing for the occasion was well chosen and rendered and was much enjoyed by the entire audience present.

With a few exceptions all the best vocalists of the town were present.

Mrs. Price sang a solo in which the full chorus joined.

Mrs. Long who always gladdens a Paris audience with her heart reaching Gospel songs was present and sang a Hymn admirably adapted to the spirit of the sermon, the refrain of which,

"Count your mercies one by one
Then see what God has done,"

was especially well chosen for a Thanksgiving service.

Let us beg our young girls to cultivate Mrs. Long's natural style of singing. Her gospel hymns with her clear enunciation and soft beautiful tones, breathe the very essence of piety, while they heighten devotion and charm religious audiences all over this land.

ENDS LIFE IN A CELL.
A Man of Many Aliases Hanged Himself at Cincinnati.

Cincinnati, Nov. 28.—A man, believed to be prominently connected in Germany, committed suicide by hanging himself in his cell at the Central police station here Sunday. He was registered as Max Pickhardt, aged 27, Germany, at the police headquarters. As he registered at three hotels here under different names and under other names in St. Louis and elsewhere throughout the country, he was called "The German prince of many aliases." He was tall, fine looking and faultlessly dressed. Sunday he was moaning about "Liddie," and repeatedly said, "She will never know what became of me," etc. Letters were found addressed to Liddie Lang, Reichenbach, Saxony, Germany, and he repeatedly said she was waiting there for his return. He prayed she would never hear of his downfall.

He was arrested last Tuesday at the Grand hotel, where he had registered as Clemens Christian Lanteren and charged with being a hotel thief.

He had passports and letters of recommendation that it is alleged were stolen from a prominent German army officer named Lanteren, at the Jefferson hotel in St. Louis. Previously he had registered at the Gibson house here as Julius Auer, a traveling jeweler, whose trunk was worth \$12,000 he claimed. Later the real Julius Auer arrived and found some of the valuables gone from his trunk. Then the princely German was traced to the St. Nicholas hotel here, where he had registered as Max Greiner. Since his arrest telegrams have poured into Cincinnati from Indianapolis, Louisville and other cities, and especially from St. Louis, inquiring about the alleged "sleek hotel thief."

He had railway mileage in the name of J. Beitzman, of Cincinnati, and of C. W. Nichols and L. McDonald, of New York, all said to have been secured from rooms in hotels. A large grip contained embroideries and other valuables, said to have been stolen from the World's fair. This grip was already marked for Liddie Lang, Reichenbach, Saxony, Germany. While the man was wanted in a dozen cities, it is believed that he died without any one in this country learning his name.

COL. CHAVES ASSASSINATED.

He Served As a Soldier Under Kit Carson in the Indian Wars.

Albuquerque, N. M., Nov. 28.—News reached here Sunday of the assassination of Col. R. Francisco Chaves, probably the best-known republican politician in New Mexico, at Pinos Wells, Torrance county. Col. Chaves was the guest of a friend and while they were eating supper a shot was fired through a window and Chaves fell from his chair, dead.

He served as a soldier under Kit Carson in many Indian wars of New Mexico and in 1861 was commissioned major of the First New Mexico infantry by President Lincoln, and afterward promoted to colonel.

Mr. Chaves took part in several civil war battles in this section, including the battle of Valverde. In 1865 he was elected delegate to congress and served three terms.

JUMPED FROM THE PARAPET.

Two Prisoners Made Their Escape From Governors Island.

New York, Nov. 28.—Two prisoners escaped from Governors Island Sunday night by jumping from the parapet of Castle William to the ground, 30 feet below. The men, James Dunning and John Doyle, made their way unobserved to the water front where they swam to a small dory anchored near shore in which they rowed out into the bay. They hailed a ferryboat which picked them up and believing them to be shipwrecked sailors landed them in Brooklyn, where further trace of them was lost. Dunning and Doyle were transferred to Governors Island about eight months ago from western posts, from which they had deserted.

FOUNDED DEAD IN HIS ROOM.

Charles D. Webster Asphyxiated By Gas in Kansas City.

Kansas City, Nov. 28.—Charles D. Webster, 50, a real estate dealer, who devoted most of his time to the care of the extensive Kansas City property interests of his father, E. G. Webster, a Cincinnati capitalist, was found dead in bed at his home in this city Sunday. Asphyxiation by gas, which had escaped from a partly opened burner of the gas stove in the kitchen was the cause of his death. Appearances indicated that the burner had been left open accidentally. Webster was probably asphyxiated Friday night.

One Thankful Man.

Knoxville, Tenn., Nov. 28.—John Swanner, aged 20, of Richmond, Ind., who has been a prisoner in the Knox county jail for several months following his arrest for forgery, escaped Thanksgiving day and has not been heard from since.

The Vote of Arkansas.

Little Rock, Ark., Nov. 28.—The canvas of the popular vote of Arkansas, November 8, was made Saturday, and the result showed a plurality of 17,574 for Parker. The official figures are: Parker, 64,434; Roosevelt, 46,800; Watson, 2,318; Debs, 1,814; Swallow, 993.

Thirty-Five Injured in a Wreck.

A Continual Strain.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of som-
financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.—W. T. Brooks

Healthy Mothers.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Bosche's German Syrup would put stop to it at once? No mother should be without this old and tried remedy in the house—for its time it will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25c; large size 75c. At all druggists.—W. T. Brooks

NEW ERA IN RUSSIA.

The Czar May Grant His Subjects a Constitution.

The Zemstvo Memorial Presented to Him and He Was Deeply Impressed With the Contents of the Document.

St. Petersburg, Nov. 26.—The unexpected may happen after all. The meeting of the Zemstvo, "First Russian Congress," as it is now called, may indeed work the inauguration of a new era for Russia. Emperor Nicholas, the initiator of the plan for universal disarmament, may turn back upon the reactionaries and crown his reign by granting to his subjects the constitution which his grandfather had already prepared when he fell by the hand of an assassin.

The basis of such a possibility is the significant fact that late Friday afternoon the emperor received in the palace at Tsarskoe-Selo, M. Shipoff, of Moscow; M. Petrenkovich, of Tever; and Count Rodzianko, of Ekaterinoslav, and Count Heiden, four prominent members of the Zemstvo congress, and listened at length to their views. It developed that when Minister of Interior Sviatopolk-Mirsky presented the Zemstvo memorial and resolutions on November 24 the emperor was so deeply impressed as well by the contents of the documents as by the character of the signers and he immediately expressed a desire to personally receive a deputation of four.

The Zemstvo therefore went to Tsarskoe-Selo by imperial command. At their audience, it is understood they explained fully their position and reiterated the views expressed by the memorial that the salvation of the empire from ruin by revolution lay in the adoption of the general ideas expressed in the memorial. The emperor was greatly impressed by what he heard and asked many questions. While it is understood that he gave no indication of his purposes except the sympathy he displayed, the deputation, when they returned to St. Petersburg, were in high spirits.

The news that the delegation had been given an audience by the emperor spread like wildfire through the city Friday night and created a tremendous sensation, rejoicing among liberals and amazement among the uncompromising supporters of the old regime.

Earlier in the day the report was current an immediate effect of the Zemstvo meeting would likely be the realization of the plan for giving two elected Zemstvo representatives seats in the council of the empire.

One of the prominent liberals who participated in the congress declined to share in the jubilation of some of his colleagues, and expressed the opinion that victory was yet a long way off, although he said he believed it was sure to come in the end. He pointed out that the declaration in the memorial in favor of the abrogation of special privileges and for the equality of all classes before the law when it became known throughout Russia was bound to appeal strongly to the peasantry. "All the members of the congress," said he, "are large landed proprietors. A leveling process which would put the Muzik on an equality with them must be prejudicial to their personal interests. In no other country in the world except Russia would find men anxious to make sacrifices for an altruistic ideal."

EVACUATION OF NEW YORK.

Sons of the Revolution Give a Dinner in the Historic Old Tavern.

New York, Nov. 26.—The long room in the historic old Francis tavern, where Gen. George Washington bade farewell to his officers, Friday was the scene of an informal dinner given by the Sons of the Revolution in honor of the evacuation of the city by the British troops in 1783. There were about 70 persons present, including many who subscribed toward the fund for the purchase of the tavern.

GEN. CHAFFEE'S REPORT.

He Suggests the Disfranchisement of Deserters From the Army.

Washington, Nov. 26.—Lieut. Gen. Chaffee, chief of staff of the United States army, in his annual report says in his opinion little new general legislation is needed at this time. He says sufficient time has not elapsed since the reorganization of the army to determine wisely what legislation is necessary. He suggests the enactment of state laws disfranchising deserters from the army, adding:

"If all states and territories should by law withhold from deserters exercise of the right to vote at national, state and municipal elections, unless the act of desertion be atoned for by lawful discharge, subsequently earned by service, it seems probable that the most healthful remedy practicable would be applied to the evil and that the result would be surprisingly great."

The general says that inquiry of men in guard houses on his tour of inspection elicited no special reason for desertion, the general reply being that army life was not what had been anticipated. Gen. Chaffee believed the adoption of his suggestion would relieve military prisons of two-thirds of their occupants.

The report urges the re-establishment of recruiting depots at Fort Sloman, Columbus barracks and Jefferson barracks.

At present there are something over 1,700 general prisoners at army posts and the post guard houses are "simply crowded to an unsanitary limit." Additional prison facilities on the Indianapolis military reservation are specifically recommended. A number of extracts from the reports of general officers favoring the restoration of the canteen are given.

RUSH OF IMMIGRANTS.

The Station at Ellis Island, New York, Is Overcrowded.

New York, Nov. 26.—So great has been the rush of immigrants to this port within the last few days that the immigration station at Ellis Island was crowded Friday and several thousand steerage passengers were forced to remain Friday night on board the steamers on which they arrived from Europe. When the Baltic came in during the forenoon with a steerage list numbering 1,700, the officials of the steamer were informed that there was no room for them on the island. Five thousand immigrants already were crowded in the detention quarters while the normal handling capacity of the present force of inspectors is only 3,000. Under the circumstances they refused absolutely to handle the additional 1,700 brought in by the Baltic and the steamship officers were obliged to keep them on board under guard.

Washington, Nov. 26.—The District commissioners have approved the general plan proposed for the establishment of the American Railroad Appliance exhibition in connection with the International Railroad Congress, which meets in Washington next May. It is proposed to hold in connection with the railroad congress an exhibition of American railroad appliances, in the interest of the extension of American trade to foreign markets. The exhibition will be held on a ten-acre site near the Washington monument if the consent of the war department be secured.

VISITED WORLD'S FAIR.

President and Party Spent Nine Hours on the Grounds.

Careful Precautions Were Taken By the Officers to Insure the Personal Safety of the Chief Magistrate of the Nation.

St. Louis, Nov. 28.—in sharp contrast with the strenuous experience of Saturday, when a hurricane effort was made to view the Louisiana Purchase exposition in nine hours, President Roosevelt's time Sunday was passed quietly and uneventfully.

Rest and recuperation from the fatigue of Saturday constituted Sunday; almost the sole idea of the President and Mrs. Roosevelt and their immediate party.

After a late family breakfast at the residence of William H. Thompson, treasurer of the Exposition Co., who entertained the President, Mrs. Roosevelt, Miss Alice Roosevelt, Secretary and Mrs. Loeb and Dr. P. M. Rixey, the president and party attended divine service at 11 o'clock in the Second Presbyterian church. It was known that the president would attend the morning service at this church.

Long before the hour of his arrival the streets in that vicinity were crowded with people almost from curb to curb. The crowd was handled admirably, however, and gave the big force of police and secret service officers no trouble. A considerable crowd assembled also near the Thompson residence. As the President and Mrs. Roosevelt descended the steps of the residence to enter their carriage, the people respectfully uncovered, but there was no noisy demonstration. The silence on this day was appreciated by the president. Both he and Mrs. Roosevelt acknowledged the silent salutation of the crowd—the former by tipping his hat and the latter by bowing and smiling.

Careful precautions were taken by the officers to insure the personal safety of the president. Watchfulness was not relaxed for an instant. The president's carriage was surrounded by secret service officers and two picked sergeants of the Eighth United States cavalry rode, one on each side of the carriage, both going to and returning from the church. As the president's carriage stopped at the church entrance, the crowd could restrain its friendly feeling no longer. Hearty cheers were given for the president, which he acknowledged by tipping his hat. He was met at the entrance by the officers of the church, who escorted him and Mrs. Roosevelt and other members of the party to pews which had been reserved for them.

At the conclusion of the service Dr. Nicolls, the pastor, requested the congregation to remain seated while the president and his party retired from the church. The president was well on his way to the residence of Mr. Thompson, therefore, before the congregation had left the church.

After luncheon the President and Mrs. Roosevelt received informally a few personal friends who called merely to pay their respects. The president also greeted one of his former comrades in the Rough Riders, Private Schroeder, of Muskogee, I. T., who is now connected with the Indian police of the territory. He had come to St. Louis expressly to see the president. At 4 o'clock the party went for an extended drive.

On his return trip the president was followed by a procession containing more than 200 vehicles.

Sunday night the President and Mrs. Roosevelt, Miss Roosevelt, Secretary and Mrs. Loeb, Dr. Rixey and Mr. and Mrs. Thompson were entertained at dinner at 8 o'clock by Mr. and Mrs. Francis at their residence. After the dinner the president and party returned to the Thompson residence. At 10:15 they left in carriages for the exposition grounds, where their special train had been held awaiting their departure for Washington.

The special train carrying President Roosevelt and party left the World's fair grounds at 12:01 Monday morning on its way to Washington.

Baltimore, Nov. 28.—Thomas Sullivan, 16, and Michael Felden, 17, are held by the Baltimore police on the charge of obtaining \$1,500 from James Kennedy, a restauranteur, of Buffalo, N. He was taken to a local hospital and while the physicians were dressing his wounds it was developed that he and Sullivan had run away from their homes in Buffalo.

President's Home County Vote.

The Worst On Record.

With no rain in sight it seems certain that the present drought in Kentucky will be the worst on record, not even excepting 1854. Reports from all over the State to the Western Bureau are that not only stock, but farmers, are actually suffering from the scarcity of water. All the trains are hauling twice as much water as they were carrying a week ago.

Neighbors Speak Well of Him.

The Georgetown News, of last week said: "The numerous friends of Hon. Albert Thompson, of Bourbon county, will be delighted to know that he had an easy thing in winning the nomination for Sheriff of that county by a majority of 628. Good Democrats will not, and it is foolish to expect it of them, to turn down a friend like Thompson. His record in the Legislature will stand inspection at all times. Albert Thompson is a true-blue Democrat and will always be found fighting for the cause of Democracy."

Football Casualty List.

Thirteen deaths have resulted from football this season. The casualty list is the same as last year, but the number of serious injuries during the season just closed will exceed that of any year since the introduction of the modern college sport. The players injured number 298. This is the innocent game that is endorsed by the Christian Presidents of Colleges who would faint if you should mention the word "prize-fight."

She was also badly burned on both hands from fighting the fire. Fortunately several men were in the lobby of the office waiting for their mail and rushed to the rescue, smothering the flames with their coats.

Miss Mary is one of the prettiest and handsomest young ladies in Millersburg, exceedingly popular and has the sympathy of every one. The explosion did considerable damage to the office and contents, blowing out two large glass in the front window. The blinds, clock and considerable mail were scorched and burned before the arrival of the fire department. Sudden Death.

The sudden death of George Gilmore Smith, the famous band leader of Cincinnati, at the Fordham Hotel, this city, Friday morning, was but another illustration of the saying, "in the midst of life we are in death." "Smittle," as he was familiarly called here, as he was throughout the country, had played Thursday night with his band at the Jolly Fellows' dance in the Elks' building, retiring about three o'clock Friday morning. He was suffering with a cold and did not rest well, and being urged by his roommate to call a physician, got up went down to the hotel office and consulted a physician, who prescribed for him and told him to go back to bed. About 10 o'clock he was noticed to be much worse, and died in a few minutes thereafter of apoplexy. He was a member of the Knights of Pythias, Elks and Knights Templar. He was very popular, not only at his home in Cincinnati, but throughout the whole country, it being said that he had led more parades with his famous band than any director living. He leaves a wife and one son, the latter being with him here. The local Knight Templars and a number of Elks escorted the remains to the afternoon train Friday.

LEWIS DONZETTA Presents Sutton Vane's Masterpiece, the Greatest of all Melodramas,

"The Span of Life."

THE WINNER TO THE WORLD.

You may laugh at my pains, you may say
I'm a fool to expect to succeed;
You may try to heap things in my way,
You may answer me "No" when I
plead;
You may plot to destroy me and meet
My every advance with a frown,
You may spread out your snares for my
feet;
But you can't keep me down!

You may question my right to aspire,
You may rail at my wish to mount high;
You may hold back the aid I require,
My worth you may grimly deny;
You may try to entice me away
From the path that leads up to renown,
You may scourge me and scoff and be-
tray;
But you can't keep me down!

You may bring all your cunning to bear,
For the purpose of breaking my will;
You may load me with fetters to wear,
You may rail at my strength and my
skill;
You may rob me of love and of trust,
You may call me knave, coward or
clown,
You may press my face into the dust,
But you can't keep me down!

CHAPTER VIII.—CONTINUED.

"And how would you prevent it, Mademoiselle Anne?"

"By standing in your way, so!" she answered, stretching out her slender arms and barring the window with her slight figure. "A feeble barrier, you say; yet you were my knight—even though only in play—and I, at least, do not forget it. Gentlemen do not pass to freedom over the bodies of their ladies," she continued quaintly.

"Ah!" he cried, looking at her with mingled pride and vexation, "I could brush you aside in a moment."

"But you would not, Sir Philip," she went on, lapsing into the old style of address. "Besides, I should scream, and then—and you cannot go down those rocks at night. The danger—it would kill me—the thought hurts me here."

She laid her hand innocently upon her heart.

"The baron of old did it," he answered.

"Oh, yes; but he went for love."

"And I for liberty."

"And is liberty stronger than love, monsieur?"

"By heaven, Little France," he answered impulsively, calling her by a name which she loved to hear, "I know not if it be! I am afraid 'tis not, since—"

"Since what, monsieur?"

"Since I stay here with you," he replied decisively. "Now, you must go to bed. I want not your death upon my hands."

He stepped forward and lifted her in his arms again. She weakly protested, but allowed it. They both felt the end of the game had come, yet for the last time she indulged herself. To-morrow would see—nay, to-night saw her a child no longer. Yet she clung to the spirit of the play, the hardest to be lost of all the ideas youth cherishes.

"You promise me on your word of honor that you will not seek to escape when I am gone to bed, Sir Philip?" she asked, nestling against him, her arms around his neck, her head on his shoulder, as he carried her toward her chamber.

"I promise you, Lady Anne, on the faith of a knight—your knight."

"And you are not playing this time?"

"Not this time," he answered, setting her down at the door of the room. "Good-night," he added, pressing his lips as of old to the little brown hand.

"I trust you, Sir Philip," she answered. "Good-night, and we will never play together as we have."

"Yes, yes, to-morrow!" he cried after her, as she shook her head sadly and disappeared.

"Good God, man!" said Grafton to himself, as he sat down in his room to think it over. "You had a glorious chance for liberty, and here you had to go indulge in theatrics with that little Rohan girl! And you are fool enough to be satisfied with the situation, my boy," he soliloquized. "Are you falling in love with a chit of 13? And yet how she looked when I—Pull yourself together, man! 'Tis time to get out of here—Such a thing is preposterous—and impossible at best."

And yet he had lived long enough to know that it is always the impossible that happens when hearts are under consideration.

Fortunately it was only the next morning that the marquis came home with the welcome tidings for Grafton—or were they unwelcome after all?

that he was exchanged, that he was free to go that instant if he would.

"I am glad, Sir Philip," said Anne, weeping as she bade him good-bye alone in the tower-room, "that you didn't run away last night. You will be my knight in earnest and come back to me some day? You promise me?"

"Yes, in earnest," he answered, smiling, "and some day I shall come back, I promise you."

CHAPTER IX.

THE GENERAL'S HEART.

FIVE years had elapsed since Philip Grafton left the Rose of the Rohans in tears, and a thousand leagues of ocean now divided him from the old Breton tower; five years filled with high endeavor and honorable enterprise. He had risen to the rank of post-captain some years since and had been successfully engaged in his profession in many seas. His father had died meanwhile and he was alone in the world. To no woman among the many who had looked love in his eyes had he given his affection, and his friends regarded him as a confirmed bachelor. Was he still dreaming of Anne? It is enough to say he had not forgotten her—perhaps that is all.

It was evening on the 12th of September, 1759, a clear though moonless night. The wind fell as the sun set, and the ships slowly drifted up the river with the heavy flood-tide. On the shore to the left lay the camp of Bougainville. The white tents of the soldiery on the heights of Cap-Rouge could be dimly detected in the soft illumination from the irradiating stars overhead. Lights twinkled here and there on the heights, or moved along on the crest of the bluffs, showing that, as usual, the French were on the alert and watchful.

There was much unwonted but subdued bustle on the English fleet as well. Men were being paraded and mustered on the decks, arms and equipments looked to, ammunition pouches filled to repletion, and the haversacks and canteens of the men provided with food and water, for it was hardly known when and where they would get anything to eat after they left the ships.

Far down the river the distant lights on Cape Diamond were almost hidden in clouds of smoke, and the muffled yet continuous roaring of the heavy guns from Admiral Saunders' ships of the line and the batteries at Point Levis, with the answer of the French

"Below sir, in the admiral's cabin, supervising the details for the evening. Do you go with them, captain?"

"I believe that I am to have charge of the debarkation," answered Grafton heartily; "would you like to go?"

"Indeed I would, sir."

"Very well, I'll speak to Capt. Rous. I shall doubtless see you again in a few moments."

Presently Grafton entered the cabin. "Ah, Grafton, glad to see you!" said a tall, thin man seated at a table, who appeared to be very ill. "Prompt as usual, I see."

"You said nine o'clock, general, and you know we sailors can be quite as punctual as you gentlemen of the army—wind and tide permitting, of course."

"Well, captain, I—but stay! You will excuse us, Monckton, and gentlemen all, I am sure," said the general, turning to his most trusted subordinate and three or four staff officers with whom he had been in consultation, "I have something of a private nature to say to Capt. Grafton, and with your permission—no, no, keep your seats!" he added, as he saw them rising, "we will withdraw to the inner cabin. You see, I have two rooms, Grafton, by the courtesy of Capt. Rous, luxurious quarters for a soldier in the course of an active campaign."

The two men, bowing to the officers, who returned their salutations with elaborate courtesy, withdrew into the inner cabin. Motioning the sailor to a seat the general sank down on a transom, rested his elbow on the post-sill, leaned his head upon his hand, and gazed through the open port toward Cap-Rouge. Grafton did not presume to break the silence.

"Oh, that's all right," answered Grafton, hastily, with the Anglo-Saxon inclination to the avoidance of a scene.

"We have been friends since my father sent me to the English school, where we met. I was a little colonial lad from Massachusetts, and mighty lonely I was, Jimmie, until you took me up and championed me."

"But you fought your own battles, Phil."

"You saw that I had fair play, anyway. I'll tell you what it is, Wolfe, if your body only equalled your spirit, what a knight you would have been!"

"Well, it's about that body that I want to speak. As I told you, I am doomed. I shall never get back to England alive; the sickness upon me is mortal. The physicians have said so, and I feel that it is true. Look at me, you can see for yourself! If it were not for the fight I should be on my back now, and if I have to die I'd rather do it on the field yonder—after we have won, of course—but that's as God pleases. This is what I want you to do."

As he spoke the young general unbuttoned his waistcoat, loosened his tie, and drew from his neck a little gold chain to which was attached a golden locket inclosed in a tight leather case. He slipped the chain over his head, drew the locket from the case, opened it and held it toward the light. He looked long and earnestly at the picture it contained—the portrait of a young and lovely woman. Observing that his friend had considerably turned his head, he raised it softly to his lips. A single tear fell upon the ivory miniature as he closed the locket, slipped it back in the leather case and extended it to Grafton. Deep tribute of affection lies in the tear of a soldier—of a soldier like Wolfe.

"When you get back to England, old friend," he said, slowly, "I want you to give this to Katharine Lowther, and tell her how, the night before I—before the battle, I mean, I gave it to you in the cabin of the ship, and how I loved her to the end. I have sent my farewells to my mother and the rest by some who know them, but I lay this last duty upon you. Nay, man, slip it around your neck. 'Twill not hurt Kitty, 'twould not hurt any girl to have her portrait worn against so honest a man's heart. And—" he hesitated, "don't mention this to any one, and see that it does not leave your person until you give it to her. Now, Philip, we must go. Your hand, old friend, and good-bye."

"Shall we succeed, think you Wolfe?" asked Grafton.

"What think you of the prospects yourself?"

"I am a sailor, I know little of such things. Give me the deck of a ship and I am at home. I fear nothing there—unless it be a lee-shore—but on land I prefer your views."

"A noble fellow!" exclaimed the young general heartily. "If he fails to take the town, I will ever bear testimony that our want of success was not due to any lack of co-operation on his part."

"Shall we succeed, think you Wolfe?" asked Grafton.

"What think you of the prospects yourself?"

"I am a sailor, I know little of such things. Give me the deck of a ship and I am at home. I fear nothing there—unless it be a lee-shore—but on land I prefer your views."

"Shall we fail? God knows!" murmured Wolfe softly, half soliloquizing. "I tried to turn their flank on the Montmorenci and failed there. I tried a direct attack on the Beauport lines and failed again. This time I know not. The path's a poor one at best. A hundred men at the top might hold an army," suddenly, as if awakened from a dream. "Of course not! We shall not fail! We can't fail! Philip, I must have Quebec! And now, at that! 'Tis our last chance, and mine!"

"'Tis a hard fate, but this body of mine is done for. I may last for a few days longer, but my race is about run."

"Don't say that, James!" exclaimed his boyhood friend, protesting even against the bitter assurance in his heart of the truth of the dying soldier's words.

"It isn't the saying, old friend, but the fact, that makes it hard to bear—and 'tis true. This poor frail body is not equal to the demands I have made upon it. If it carry me through to-night and to-morrow I shall say naught. Death may have its way."

"Peace, Philip. I know what you would say, but I know myself 'tis useless. I want to strike one good blow for old England before I go. I should like to see the Cross of St. George floating above Cape Diamond before—but we shall see, Stobo says the path is practicable. He's a canny Scot and should know what he's talking about. I have examined it carefully as we floated past it, and I believe that we can get up. Once let me get on those plains and I interpose between Montcalm and his base of supplies. He must fight, retreat or surrender."

"Will you show the signals, Admiral Holmes?" asked Wolfe, as he stepped on deck. "We are all ready, I believe, sir."

"Very well, general," responded the admiral, turning to Capt. Rous and giving him an order. A moment later two lanterns were hoisted, one above the other, at the spanker-gaff end. The signal was immediately repeated throughout the squadron. Shriek whistles rang out as the boatswain's mates of the different ships bawled out hoarse commands.

Instantly the soldiers and sailors came swarming to their stations.

CHAPTER X.

THE BEGINNING OF THE HAZARD.

SIX bells were striking on the Sutherland as Wolfe and Grafton came out of the cabin. As the sound of the mournful couplets rang out through the night the bells of the other vessels caught up the slow refrain and the sound was repeated from ship to ship over the dark river. The character of the night had changed slightly. Faint clouds were drifting athwart the starlit heavens, and there were heavy banks to the southward which looked like rain.

"Will you show the signals, Admiral Holmes?" asked Wolfe, as he stepped on deck. "We are all ready, I believe, sir."

"Very well, general," responded the admiral, turning to Capt. Rous and giving him an order. A moment later two lanterns were hoisted, one above the other, at the spanker-gaff end. LARGEST BRIDGE ON EARTH

Contract Is Let for Structure 10,270 Feet Long to Span East River, New York.

The Pennsylvania Steel company, of Steelton, Pa., has entered into a contract to build the Blackwell's Island bridge at New York, the largest ever constructed. It will be 10,270 feet long, containing 100,000,000 pounds of steel, 135 feet high, the contract price aggregating \$5,000,000. It will have trolley tracks, elevated roads, foot and drive ways.

The bridge will be the longest and heaviest of the three across the East river. It is to be located on a line between Fifty-ninth and Sixtieth streets in Manhattan, and will connect this borough with the borough of Queens on Long Island. The width of the lower floor will be 90 feet and the upper floor to be 60 feet, with four trolley tracks and two elevated railroad tracks.

The top of the tower above high water is to be 300 feet, the length of the river span is to be 1,182 feet, and the length of the bridge proper will be 3,720 feet. The length of the Queens approach is to be 5,500 feet, and the total length of the bridge and approaches will be 10,270 feet.

When finished it will have eight miles of trolley tracks and four miles of elevated railroad tracks. This is considered sufficient to carry 150,000,000 passengers per year.

To cover these tracks it would require 2,000 cars and to cover the entire bridge it would take 1,000,000 people.

WOMAN PREVENTS A WRECK

Gallops on Pony Three Miles to Warn Section Men of Burning Bridge.

Mrs. Horace Spaulding, residing north of La Crosse, Wis., mounted a pony and galloped three miles in the darkness over a country road at four o'clock the other morning, aroused the section hands at De Soto and saved a Burlington train from going through a burning bridge.

Mrs. Spaulding was awakened by a Burlington passenger train which passed her home about three o'clock. Being unable to go to sleep again, she arose, dressed and went out of doors. A bright light on the railroad arrested her attention and she discovered that a small railroad bridge was burning fiercely, presumably having caught fire from the sparks of a passing locomotive.

Hastily mounting her pony Mrs. Spaulding galloped to De Soto, the nearest station. She barely succeeded in arousing the section foreman when the rumble of an approaching freight train was heard, and the signals were put out in time to stop it.

There is a steep down grade from the depot to the point where the bridge was burning, and as the train was a heavy one, it could not have stopped after it had reached a place from where the bridge could have been seen.

Property Left in Carriages.

The feature of the annual report of the London commissioner of police that invariably attracts most notice is the record of property left in "public carriages." It is the point of most direct human appeal to the personal sympathies of the average reader. No fewer than 48,188 articles were found in public carriages and handed over to the police by drivers and conductors in 1903. The list is headed with a score of 21,956 by—need you ask?—umbrellas.

At the other extremity stands one human skull, which may imply either a gruesome tragedy or a medical student on a spree.

OFFICIAL CUP OF COFFEE.

Proper Method of Brewing the Beverage to Be Determined in Washington.

By direction of the secretary of agriculture the bureau of plant industry is to take up at once experiments to determine the best manner in which to brew a cup of coffee. To this end, says a Washington report, F. L. Lewton, a specially trained expert, has been engaged. The view of the department is that a cup of coffee is good because of the manner in which it is brewed, rather than from the quality of the bean from which the beverage is made. It will be appreciated by all persons acquainted with the art and mystery of coffee-making that various conditions, apparently trivial in themselves, have to be taken into consideration in producing the beverage.

For instance, in the process of roasting the beans may be more or less damaged by being under or over done, and the flavor of the coffee thus impaired to a corresponding degree. Hence the necessity for ideal conditions in roasting. Again, the effects of water at various temperatures upon the ground coffee and the proper period for infusion will, for the first time in the history of coffee-making, be thoroughly and accurately ascertained.

The retention of caffeine, the active principle of coffee, to which it owes its stimulating effects, and the elimination of the caffetannic and caffet acids, which are not only injurious to health, but communicate an unpleasant, bitter taste to the beverage, will be, of course, the principal objects.

MURMURS FROM GROUND.

Strange Sounds Heard for Many Centuries on the Red Sea Borders.

A singular phenomenon occurs on the borders of the Red sea to a place called Nakous, where intermittent underground sounds have been heard for an unknown number of centuries. It is situated about half a mile distant from the shore, whence a long reach of sand ascends rapidly to a height of 300 feet. This reach is about 800 feet wide and resembles an amphitheater, being walled by low rocks.

The sounds coming up from the ground at this place recur at intervals of about an hour. They at first resemble a low murmur, but over long there is heard a loud knocking, somewhat like the strokes of a bell and which at the end of about five minutes becomes so strong as to agitate the sand. The explanation of this curious phenomenon given by the Arabs is that there is a convent under the ground here and that these monks ring for prayers. So they call it Nakous, which means a bell.

The Arabs affirm that the noise so frightens their camels when they hear it as to render them furious. Philosophers attribute the sound to suppressed volcanic action—probably to the bubbling of gas or vapor underground.

Her Mistake.

"Mamma," said a little West side girl yesterday morning, "I can't go to school to-day. My tooth is aching awfully."

"All right, Lucy," said her mother, "get your jacket and I'll take you to a dentist and have the tooth pulled."

The child hesitated a moment and then said: "Oh, mamma, I made a mistake. It isn't my tooth—it's my head that's aching."—Kansas City Times.

A Teacher's Testimony.

Hinton, Ky., Nov. 28 (Special)—It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, teacher in the Hinton school, has pleasing evidence to the contrary. Mr. Thompson had Diabetes. He took Dodd's Kidney Pills and is cured. In a statement he makes regarding his cure Mr. Thompson says:

"I was troubled with my kidneys for more than two years and was treated by two of the best doctors in this part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills and what they did for me was wonderful. It is entirely owing to Dodd's Kidney Pills that I am now enjoying good health."

Many doctors still maintain that Diabetes is incurable. But Diabetes is a kidney disease and the kidney disease that Dodd's Kidney Pills will not cure has yet to be discovered.
